

teknion zones modular seating

teknion

Teknion® and design firm PearsonLloyd have sustained a creative partnership and collaboration resulting in Zones™— a furniture collection that represents a more humanistic work culture and the emergence of new behaviors at work.

Zones comprises Modular Seating, a lounge collection that includes fully upholstered straight or curved bench modules plus coordinating tables, tablets and accessories. Modular Seating is designed to work with and complement other Zones products, thereby expanding the collection's planning possibilities and applications in architectural spaces. Visually, the collection creates a soft domestic mood with a rich and layered mix-and-match vocabulary.

key features include:

comprehensive offering: A fully curated modular seating line that easily configures and reconfigures the same set of components in a multitude of linear and curved applications, simplifying specification and maximizing planning capabilities.

planning: Common straight bench module widths and 30, 60 and 90 degree corner units are optimal for architectural space planning needs. Corner units expand the ability to create curved transitions of varying footprints, whether connected to a straight bench or another corner unit, of similar or different orientation.

form & function: A residential influence is created with curved lines and form. The bench back is defined by a visually flowing profile with a sculpted depth designed to function as lumbar support.

integrated power: Optional power/USB access, provided below the seat module, enhances functionality and provides a casual recharging station for wireless needs.

upholstery
Sofa Seat/High-Back: *Heather Tech, Obsidian Tech*
Sofa Mid-Back: *Heather Tech, Sundew Tech*
Club Chairs: *Digi Tweed, Sundew Tweed*
Pillows: *Thangka, Silver Rings/Refraction, Wavelength*

Greystone

Designed to challenge conventional office layouts, the Zones collection creates fluid environments that foster informal productivity. Zones Modular Seating responds to this notion, giving users choice

that accommodate emerging patterns and functional prerequisites—places for quiet focus, social lounge niches and multi-activity areas.

Recognizing that people change activity and postures throughout the day, Zones encourages users to lounge and work, meet and rest, sit, stand and perch. Modular Seating, combined with Zones Ledge and

Dialogue Tables, creates multi-tiered spaces including a bar-height touchdown centre as well as a combined collaborative/meeting area outside the traditional boardroom.

Zones expresses an approach to design that recognizes the human need for spaces that are both practical and pleasurable to inhabit, that help people to feel at home in the

office. A combination of elements with familiar forms creates an unconventional work setting that evokes the residential environment.

Zones Modular Seating blends with other Zones products to divide space and create distinct activity zones. The signature serpentine form is enhanced by mixing

high- and low-back with backless units and varying their direction and materials, resulting in a soft domestic vocabulary.

01 in-line table

In-Line Tables, available with optional Table Lamps, provide an integrated surface and curved profile that coordinate with upholstered seats.

02 add-on tablet

Add-On Tablets, sized for individual or shared use, add functionality to Modular Seating configurations.

03 zones arm

An optional Modular Seating Arm is available for mid- or end-of-run sofas, which also lends aesthetic coordination to the Zones Lounge chair arm.

04 ledge table

Ledge Tables, available straight or curved, are designed to nook behind the Zones Modular Seating high-back sofa to provide a tiered working application. Tables are tethered to benches or freestanding for multi-use applications.

05 power cube

An optional Power Cube located below the seat provides a casual power/USB recharging station.

06 contours and pillows

A residential influence is created with curved lines and cushioning. Monochromatic or contrasting upholstery allows a personalized aesthetic. Loose pillows add color accent or provide added lumbar support.
